Provide a brief history of your team. What is the primary association among members of the team (i.e. previous work, school, etc.)?

What previous involvement has your team had in the security industry?

What contributions do you plan to make to the industry in the future?

TEAM VIDEO

Please select from ONE of the following options:

1) We'd like to see your team in action. Make a 3-5 minute video re-enacting a scene or scenes from a thematically appropriate movie. Please feel free to take as much artistic license as you wish in order to capture the spirit of your team. Accuracy and adherence to the script is unimportant. It is not a requirement that the video be live action.

-OR-

2) We'd like to see the technical prowess and ingenuity of your team. Build a Rube-Goldberg device to ring a bell using common household items and/or toys. There should be at least one energy transfer per team member. Submit a video of your Rube-Goldberg device in action.

When submitted, your video should be in at least 320x240 resolution. Higher resolutions are acceptable.

TEAM LOGO

Please provide us with your team's official logo. We ask that this be submitted in PNG format and be at least 300x300 pixels in size. Larger images and alternate formats and proportions are acceptable.
